

# Joining the Physician Wireless Network

How to connect your personal device to the **AdventHealthPHw** wireless network.

## Getting Started:

- The **AdventHealthPHw** wireless network is the replacement for the legacy physician network, **Ph75u99t**.
- This network is not accessible by all AdventHealth staff. If you think you should have access but do not, please reach out to your local Physician Informatics team or the Service Desk.
- You will only be prompted for your username and password once every 6 months.
- If you are not active on the network for 60 days, your device will be purged and required to reauthenticate.
- **Instructions vary slightly based on your device's operating system.**

Choose the instructions that most closely match your device.

## Connecting your iOS Device to AdventHealthPHw

1. Begin by navigating to your phone's **Settings** app.
2. Next, select the **Wi-Fi** menu option.
3. You will now see a list of available Wi-Fi networks in your area. Select **AdventHealthPHw** from the list.
4. Your mobile device will be redirected to a web page where you will be prompted for credentials.
5. Please enter your AdventHealth credentials in the format specified in the [table below](#), then tap **Sign On**.
6. You are now successfully authenticated to the AdventHealth Physician Wireless Network.

## Connecting your Android Device to AdventHealthPHw

1. Begin by navigating to your phone's **Settings** app.
2. Tap the **Network & Internet** menu.
3. You will now see a list of available Wi-Fi networks in your area. Select **AdventHealthPHw** from the list.
4. Your mobile device will be redirected to a web page where you will be prompted for credentials.
5. Please enter your AdventHealth credentials in the format specified in the [table below](#), then tap **Sign On**.
6. You are now successfully authenticated to the AdventHealth Physician Wireless Network.
