

Joining the Physician Wireless Network

How to connect your personal device to the AdventHealthPHw wireless network.

Getting Started:

- These instructions are intended for team members connecting to VPN and working remotely.
- The AdventHealthPHw wireless network is the replacement for the legacy physician network, Ph75u99t.
- This network is not accessible by all AdventHealth staff. If you think you should have access but do not, please reach out to your local IT support team. (CFR-APP-WirelessBYOD)
- You will only be prompted for your username and password once every 6 months.
- If you are not active on the network for 60 days, your device will be purged and required to reauthenticate.
- Instructions vary slightly based on your device's operating system.

Choose the instructions that most closely match your device.
