# Accessing EPIC from a Personal Computer

How to install the Horizon client and access EPIC from a non-managed Windows computer.

Getting Started:

- This document is intended for use on a non-AdventHealth Windows computer.
- If you have not yet enrolled in SecureAuth, please do so before continuing.
- Administrator rights are required to complete installation.

Downloading and Installing Horizon

1. Begin by navigating to the VMWare Horizon download page in your preferred browser.
2. Find your computer's operating system in the list below, then select **Go To Downloads**.

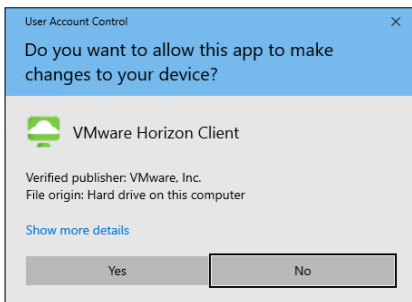

3. A new page will load with more details about the client. Click the Download Now to begin your download.

4. Depending on your browser, your download will appear in a popup or new window. Proceed with installation by clicking **Run** or **Save** and launching it from your Downloads folder.
Google Chrome Client Download

Microsoft Edge Client Download
5. A User Account Control window will appear, click **Yes** to proceed.

6. Once the installer appears, click **Agree & Install**.

7. After successful installation, click the **Finish** button.

8. If prompted to reboot your computer, select **Restart Now**.

9. When your computer has finished rebooting, open a web browser and navigate to the AdventHealth Physician Portal.

10. Once logged in, click on the blue button to launch Epic Hyperspace.

Please call the AIT Service Desk at 1-800-873-4024 for assistance.
